DETAILED ACTION

This Office action is in response to applicant's amendment filed on 26 April 2005.

Terminal Disclaimer

1. The terminal disclaimer filed on 26 April 2005 disclaiming the terminal portion of any patent granted on this application that would extend beyond the expiration date of application number 10/693,888 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-13 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1-13 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of forming a plurality of bumps on a wafer having an active surface that includes disposing a plurality of solder balls in openings

that expose residual portions of an under bump metallurgy layer and bonding the solder balls to the residual under bump portions by performing a reflow process, wherein the solder balls are disposed with a flux material formed on a surface of each of the solder balls.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
